Dear Lisa,

I am writing this note to say how much I enjoyed your presentation at the monthly meeting of the Aging Services Network. We have the opportunity to hear from a lot of different guest speakers, but your talk was certainly by far the most interesting and informative. I found your presentation to be absolutely fascinating, and I believe that the entire audience felt the same way. You certainly changed the way I think about hypnosis.

If you ever need a reference, please feel free to use my name.

Thanks again,
